## MAKING HARDWARE SYSTEMS EASY

Implementing an EHR plan is no small undertaking, and choosing the right hardware and networking system is absolutely vital. You know that now is the time to make the switch. But you already have a full-time job, and making the transition from paper can be extremely complicated, confusing and time consuming. That's where we come in.

You need a trusted partner and advisor for this complex project. That's JPS. We help you Be Greater with technology, taking a completely objective view of what you need.

The Technology Services Group of JPS brings you the expertise and manpower you need to successfully implement an EHR plan. Let our IT experts assist you with this major operation. We'll custom craft a hardware and wiring plan based on your unique practice needs and challenges—beginning with a careful analysis of your practice, your staff and your goals.

The end result is a seamless transition, the best use of your resources and the most efficient manner of implementation, engineered by experts in the field.

## WHAT WE DO

- Assessment of current hardware, wiring and staff expertise in use of technology
- Comprehensive hardware suggestions and cost estimates
- Purchase and installation of hardware, wiring and connectivity/backup
- Act as advocate with vendors, ensuring smooth implementation process
- Work onsite to get your system up and running
- Return to follow up, assess progress and make recommendations for next steps.

JPS will be with you when you need us. Once your EHR is operational, we'll assist with ongoing software and hardware upgrades, troubleshooting, meeting regulatory requirements, monitoring ROI and more.

**Call Mary Williams Matthews at 828.225.3702 today, to see how the Technology Services Group of JPS can help your practice Be Greater.**
